

Progress Report #4

Corflu Pangloss The best of all possible Corflus, under the circumstances

October 21-23, 2022 Best Western+ Sands Hotel 1755 Davie Street Vancouver, British Columbia V6G 1W5 Canada

SPECIAL NOTICE: THE CORFLU AUCTION IS NOW LIVE!

The catalog for the Corflu Pangloss auction is now online at Corflu.org and eFanzines.com. Anyone can bid on those 80 lots, including non-members – the catalog has instruction on how to bid. There will be a small number of lots available only at the con and a table for items at a fixed price.

CORFLU PANGLOSS MERCH: Now available! We've developed a line of Corflu-branded clothing and other items, thanks to Jen Farey. These include a small range of t-shirt styles in a variety of colors, mugs, tote bags and notebooks. We used Dan Steffan's pangolin design. If you go to <u>https://rusty-rose.creator-spring.com/</u> and order quickly, you should receive your items in time to show them off at Corflu.

CON SUITE by Carrie Root

Our Con Suite will be open Thursday evening, Friday early afternoon, and most of the day Saturday and Sunday. (We'll close during the key programming events.)

Goodies will be stocked on a just-in-time basis, taking advantage of the Canadian dollar. We won't be having the kind of home-made extravaganzas that earlier Corflus have staged (remember the tamales in El Paso, and Jane Hawkins' lamb curry!) but I can promise a good selection of Pacific Northwest snacks and beverages.

If anyone has a specific request, or a nut allergy that would keep them from coming into the room, now is the time to let me know! (My address is <u>carrieroot49@yahoo.com</u>.)

TIME FOR A CHAT? by Claire Brialey

Before the Covid-19 pandemic and virtual conventions, Corflu was streaming its programme items to members around the world and occasionally enticing people at the con to vaguely say something in the direction of a video camera lurking around their social space.

Every year, fanzine fans who couldn't attend the con in person would enact the tradition of trying to work out how to log onto the streaming platform, remember their password if they'd used it before, and find where they could type in text comments to chat to other people watching the programme items live. But no one who was watching the items on catch-up later could see the comments or join in the conversation. Even now that most of us are used to Zoom, you can't read or add comments later; once the meeting is closed, the comments have gone. And people watching in real time over Zoom still can't chat with people watching in the room, unless they try to open the Zoom too. (Don't try this over hotel Wi-Fi. Really. Don't!)

Now, however, we've got Discord for all your text chat needs. If you're an attending or supporting member of Corflu Pangloss who's got Discord installed on a computer, tablet, or phone, you can join the Corflu Discord server and post comments there on any subject that you want to chat about, at any time from now onwards. (After this year's con I imagine that the Corflu Craic committee would rather you did so in their channels instead, but they can tell you all about that later.)

There are a lot more details back in PR3 about getting to grips with Discord – although we do respect tradition and so you might still have the chance to try to remember a password – but once you've got an account working you can go to https://discord.gg/cMKZy5axAS to join the Corflu server.

Attract our attention when you arrive, and we'll make sure you can see all the Corflu Pangloss chat channels. You can also change your Discord display name, just for the Corflu server, so that it's a name we'll recognize: your Corflu badge name, in effect. (If you don't, we might need to ask who you are to let you in, and then we'll all get embarrassed for not recognizing one another. You see, it is just like being there in person.) Just type '/nick' followed by the name you want us to know you by, as you would any other text comment, and you will be renamed.

So far in Discord we've had discussions about programme ideas as those develop, about the auction (download the catalogue and send your bids to Andy in advance), about opting out of the Guest of Honor selection, about getting into Canada and what's around the con hotel, and about what fan activity we're not quite managing to get on with. You know, all the usual sort of stuff that people talk about a few weeks before a convention; I don't think anyone's shared their packing list yet, but that might or might not be an incentive to come and join in.

Very soon we'll have a channel for each programme item, which will give a reminder of the item description, participants and timing but mainly offer a space for people to add comments and

suggestions before, during and after the item – including putting questions to the participants, although remote viewers at the time can type those in Zoom too. Try not to pre-empt the item itself in text chat!

But you can check whether a particular topic is likely to come up in discussion, say hi to an old friend you've realized is in the audience, ask whether anyone else caught the title of the recommendation a panelist just gave, or follow up a reference someone made to your fanzine with a link so people can read it – whether or not you're watching the item live or later. And even if you're in the room at the time you can do the text equivalent of whispering to your friends during the bits you aren't really following, only without disturbing anyone else who is listening. (Don't snark too hard, though. This is part of the con, and in public, and we don't want anyone being gratuitously rude. Even when that, too, might seem like tradition.)

I'm heading back to the #con-suite for now. Although you might need to summon me out to #help-desk.

The hotel will attempt to block us around the Rosen Suite and rooms above on the fifth floor, but as is true of other cons, we need to be cognizant of our behavior, even it's just talking.

LATEST RULES FOR ENTRY INTO CANADA

Starting October 1, 2022, all COVID-19 border requirements, including vaccination, mandatory use of ArriveCAN, and any testing and quarantine/isolation requirements will end for all travelers entering Canada whether by land, air or sea.

https://travel.gc.ca/travel-covid/travel-restrictions/covid-vaccinated-travellers-entering-canada

WORTH KNOWING: The US dollar is very strong against the Canadian dollar, which is a bonus for US members. However, if you are a US citizen you need to pay in USD and not CAD for your successful auction bids. Because that's how we pay the bills afterwards.

This is the final Progress Report for Corflu Pangloss. We look forward to seeing you soon.
